

**RANCHO CALIFORNIA WATER DISTRICT
POSITION DESCRIPTION**

DATE: July 1, 2022

POSITION TITLE: **WASTEWATER COLLECTION SYSTEM TECHNICIAN I/II
SENIOR**

GRADE LEVEL: E11 / E17 / E21

SUPERVISOR TITLE: Water Reclamation Manager

FLSA STATUS: [] Exempt [X] Non-Exempt

BARGAINING UNIT: [X] RCWDEA [] RCWD MPCEA

DEFINITION

Under immediate progressing to general supervision, performs a variety of wastewater collection system operation and maintenance duties.

CLASS CHARACTERISTICS

Wastewater Collection System Technician I

This is the entry-level position in the Wastewater Collection System Technician class series. Positions assigned to this level perform limited or routine system maintenance duties under close supervision. Because employees in classifications at this level may be in a training capacity, such position does not require significant previous work experience in the applicable field. This job classification is represented by the Rancho California Water District Employees Association (RCWDEA) bargaining unit.

Wastewater Collection System Technician II

This is the journey level position in the Wastewater Collection System Technician class series. Positions assigned to this level perform a full range of collection system duties under general supervision. Because employees at this level are expected to be fully trained and competent, this position typically requires significant previous work experience in the appropriate field. This job classification is represented by the Rancho California Water District Employees Association (RCWDEA) bargaining unit.

Senior Wastewater Collection System Technician

This is the advanced journey level classification in the Wastewater Collection System Technician class series. Positions assigned to this level independently perform highly technical and specialized collection system duties at a level beyond that found at a journey level. They

may also provide lead supervision to lower level staff including assigning work and providing technical assistance and training in the completion of assigned duties. This position may oversee and direct the operation and maintenance of a phase of the operation of a wastewater collection system during a specific work period. This job classification is represented by the Rancho California Water District Employees Association (RCWDEA) bargaining unit.

EXAMPLE OF DUTIES (Duties may include, but are not limited to, the following):

- ✎ Maintenance and repair of the wastewater collection system including cleaning, rodding and jetting of sewer lines
- ✎ Monitor lift and meter stations, take readings and maintain stations; log all meter readings calculated for daily flows.
- ✎ Conduct periodic system, mainline, manhole and grease interceptor inspections; inspect newly constructed sewer lines, force mains and lift station facilities
- ✎ Prepare and maintain accurate collection system records including daily operating records and maintenance logs
- ✎ Respond to sewer overflows and take corrective action
- ✎ Utilize the Computerized Maintenance Management System (CMMS) to generate and complete work orders
- ✎ Utilize the ERP software system to generate and track purchase orders and to record time worked
- ✎ Perform routine lift station maintenance and repair including sump cleaning and submersible pump cleaning and inspection
- ✎ Investigate complaints related to sewer collection and repair
- ✎ Perform maintenance to all collection system-related equipment
- ✎ Perform as member of emergency responder team in response to chlorine or other chemical leaks

- ✎ Perform related duties as assigned
