

**RANCHO CALIFORNIA WATER DISTRICT
POSITION DESCRIPTION**

DATE: July 1, 2022

POSITION TITLE: **CONSERVATION AND WATER BUDGET ANALYST /
SENIOR CONSERVATION AND WATER BUDGET
ANALYST**

GRADE LEVEL: E31 / E35

SUPERVISOR TITLE: Water Use Efficiency and Grants Manager

FLSA STATUS: Exempt Non-Exempt

BARGAINING UNIT: RCWDEA RCWD MPCEA

DEFINITION

Under general direction, performs a variety of professional, analytical, and administrative activities in support of the Administration Division and Water Use Efficiency Department. Performs professional level duties on the District's residential, commercial, agricultural and large landscape water conservation programs. Provides rigorous data support for water use efficiency programs and water budget rate structures including financial analysis, statistical analysis, GIS-based analysis and cost/benefit analysis. This includes developing and implementing programs, policies, and procedures for promoting water conservation, providing public presentations, conducting field audits, providing consultation on residential and landscape water conservation methods, responding to customer inquiries or complaints, gathering and analyzing data and preparing detailed written reports on water conservation issues. Ability to perform a variety of technical and administrative duties as assigned

CLASS CHARACTERISTICS

Conservation and Water Budget Analyst

This is a professional journey level classification. Positions assigned to this level independently perform highly technical and specialized administrative duties, and provide training to higher and lower level classifications. The Rancho California Water District Employees Association (RCWDEA) bargaining unit represents this job classification.

Senior Conservation and Water Budget Analyst

This is a senior level classification. Positions assigned to this level are fully competent and independently perform analytical work in support of a department or District wide program; while exercising independent judgment, applying best practices study approach and analytical techniques in order to make sound recommendations based on study conclusions and results. The Rancho California Water District Employees Association (RCWDEA) bargaining unit represents this job classification

EXAMPLE OF DUTIES (Duties may include but are not limited to the following):

-  Work with customers and conservation staff toward improving water use efficiency; perform on-site water use surveys and landscape measurements
-  Develop and maintain knowledge of water budget structures and water conservation practices; develop close working relationships with customer service and operations staff to provide outreach that establishes a positive image for the District's conservation and water budget programs
-  Provide data analysis support and reporting for water budget and water efficiency programs
-  Solicit, schedule, and conduct water audits of residential, commercial and industrial and large landscape customers
-  Develop and implement major water conservation programs
-  Assist with compliance related to grant awards
-  Make site visits; gather and analyze data and make written reports to site owners and managers making recommendations for improving water use or irrigation efficiency
-  Respond to customer inquiries or complaints and provide technical assistance regarding irrigation and landscape management or water use problems
-  Provide technical expertise and advice on water conservation practices and develop public information materials for the water conservation program
-  Identify customers that may be suitable targets for turf removal and other efficiency programs
-  Analyze the effectiveness of the District's efficiency programs
-  Complete pre and post inspections of residential, commercial and agricultural efficiency projects
-  Solicit, schedule and conduct on-site surveys/inspections for high water use customers
-  Identify and correct customer water budget and rate structure data errors such as landscape measurements using Geographic Information System (GIS), number of people in household & other variances

- ✎ Communicate and work with agricultural and residential customers, home owner associations, multi-family apartment complexes, and large landscape customers to periodically review their water budget factors and ensure accuracy
- ✎ Update customer information in the District's billing system and related database systems as needed
- ✎ Assist in conducting special studies, developing reports of findings and recommendations, and assist in evaluating changes and improvements to water budgets
- ✎ Field/Office meetings with customers as needed to review and update landscape and/or crop measurements
- ✎ Work with other departments as required
- ✎ Use a personal computer to enter, maintain and analyze data and prepare reports and correspondence
- ✎ Host and/or attend public meetings and workshops and make presentations
- ✎ Maintain and analyzes customer water consumption information; reports on current and projected water supply and demand and related issues
- ✎ Perform work requiring sound independent judgment, accuracy and set priority of assignments
- ✎ Conduct a variety of special projects and studies
- ✎ Communicate effectively, both verbally and in writing
- ✎ Prepare detailed, clear, and concise written reports and correspondence
- ✎ Perform related duties as assigned
